To whom it may concern

It was great to work with Paul Humphries and his team including site manager Kane.

Construction of Roses Pharmacy Ltd was started on schedule & completed on time and we shifted in on Queens Birthday 2003.

Minor building alterations were completed easily, as plenty of time were given for consideration of changes and Paul was fair with the prices for alterations.

Paul Humphries worked well with my architect and the whole concept including finish has met expectation and the results in business have exceeded expectations.

I would definitely build with Humphries Construction again.

We wish Humphries Construction all the best for the future.

Yours Faithfully
