Dear Paul/ Sue

SUBJECT: HARDIES HEALTHY LIVING.

37 HOROMATANGI STREET, TAUPO

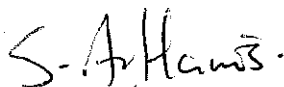

The above job has now been completed and the code of compliance certificate issued.

This was a difficult project in terms of the store remaining trading during the construction period and a limited budget. Your attitude and accommodation in respect to this has been appreciated and the team work shown has resulted in a successful project for the clients and their business.

I and the clients would like to thank you for your effort to achieve the completion and result of the shop fit out. The fact that comments are still forth coming from customers visiting the store confirms this.

Again thank you for your effort on this project.

Sincerely,

Sean Harris
